THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2881-42, dated 8th December 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

C. A. BARRON,

Chief Secretary to Government, Punjab.

I.—This Institution has been established at the desire, and with the assistance, of the Punjab Government, in order to provide a Public Library for the use of all classes in the Province.

II.—The objects of the Institution are—

(a) to provide a Public Library for the use of all classes of the community which shall contain official publications as well as general literature, both Oriental and of other kinds;

(b) to provide a Reading-Room which shall be open to the public free of charge.

III.—The Institution seeks to contribute to the intellectual advancement of the country—

(a) by lending a helping hand to those who have the aspirations of a student or a scholar, by placing within their reach those literary and scientific treasures which they might find it difficult or impossible to acquire for themselves;

(b) by rendering accessible in one place valuable information that may be required for local historical research, or for any other enquiry that depends upon records rather than experience;

(c) by assisting those who are engaged in any effort for the good of the people by enabling them to consult the stories of similar efforts in countries more advanced than India, from whose experience India may well lay to heart valuable lessons; and

(d) by providing, on an adequate scale, for the general public means, both of discursive reading in various fields of literature and of more profound studies in specialities.

IV.—The Committee of the Library earnestly appeal to all interested in the moral and intellectual development of this country for help and assistance to enable the institution to possess not only what is best in Western Literature, but also "a thoroughly representative collection of Eastern works," and to this view they appeal to Indian noblemen and gentlemen and indeed to all, of whatever race or creed, who can appreciate what oriental thought has effected in the past, for help in securing for the Public Library those valuable collections of manuscripts and oriental books (in the possession of Chiefs and gentlemen) whose usefulness is considerably curtailed by their inaccessibility to the public.

V.—A donation of Rs. 50 entitles the donor to the privileges of a life member, thereby enabling him not only to obtain a private benefit, but also to contribute towards an excellent public object.

VI.—The Library, being open to the whole Province, deserves support from all parts of the Punjab, and the Committee ask Municipal Committees, District Boards and Indian States to make monthly grants of money that the institution may be maintained in a state of thorough efficiency.

VII.—Copies of the Alphabetical and Classified Catalogues of works of all kinds in the Library are procurable on application to the Librarian.

VIII.—The Rules are given below—

I.—CONSTITUTION AND COMMITTEE.

1. The Committee shall consist of not less than 14 members, including the President and Secretary.

2. The Deputy Commissioner of Lahore, the Director of Public Instruction Punjab and the Director of Agriculture and Industries, Punjab, shall be *ex-officio* members.

3. The Municipality of Lahore, the Punjab University, the Bishop of Lahore, and the Committee of the Lahore Gymkhana (late Lahore and Mian Mir Institute) shall each nominate a member. The members so appointed may be changed from time to time by the authorities nominating them.

4. The life members shall annually elect two members to be on the Committee for one year.

5. The remaining members will be nominated by Government, who will also appoint the President.

6. The Committee shall appoint its own Secretary.

7. Standing Sub-Committees shall be appointed by the Committee to carry on the management of the different departments of the Library.

8. The Secretary shall be a member of every Sub-Committee.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2881-43, dated 8th December 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

C. A. BARRON,
Chief Secretary to Government, Punjab.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2831-47, *dated* 8*th December* 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of educati

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

IV.—For the purpose of satisfying the several debts and liabilities of the said Company and of paying the costs, charges, and expenses of, and incidental to, the winding-up the affairs thereof, I believe the sum of Rs. will be required, in addition to the amount of the assets of the said Company mentioned in the said Schedule A, and the said sum of Rs.

V.—In order to provide the said sum of Rs. , it is necessary to make a call upon the several persons who have been settled on the list of contributories as before mentioned, and having regard to the probability that some of such contributories will partly

Where property has been realized, the gross proceeds of sale must be entered under realizations, and the necessary payments incidental to sales must be entered as disbursements. These accounts should not contain payments into the Company's liquidation account (except unclaimed dividends see paragraph 4) or payments into or out of bank, or temporary investments by the Liquidator, or the proceeds of such investments when realized, which should be shown separately—

(a) by means of the bank pass book ;

(b) by a separate detailed statement of moneys invested by the Liquidator, and investments realized.

Interest allowed or charged by the bank, bank commission, etc., and profit or loss upon the realization of temporary investments, should, however be inserted in the accounts of realizations or disbursements, as the case may be. Each receipt and payment must be entered in the account in such a manner as sufficiently to explain its nature. The receipts and payments must severally be added up at the foot of each sheet, and the totals carried forward from one account to another without any intermediate balance, so that the gross totals shall represent the total amounts received and paid by the Liquidator respectively.

Trading account.

(2) When the Liquidator carries on a business, a trading account must be forwarded as a distinct account, and the totals of receipts and payments on the trading account must alone be set out in the statement.

Dividends, etc.

(4) When dividends or instalments of compositions are paid to creditors, or a return of surplus assets is made to contributories, the total amount of each dividend, or instalment of composition, or return to contributories, actually paid, must be entered in the statement of disbursements as one sum ; and the Liquidator must forward separate accounts showing in lists the amount of the claim of each creditor, and the amount of dividend or composition payable to each creditor, and of surplus assets payable to each contributory, distinguishing in each list the dividends or instalments of composition and shares of surplus assets actually paid and those remaining unclaimed.

(4) When unclaimed dividends, instalments of compositions or returns of surplus assets are paid into the Company's liquidation account, the total amount so paid in should be entered in the statement of disbursments as one sum.

(5) Credit should not be taken in the statement of disbursements for any amounts in respect of Liquidator's remuneration unless it has been duly allowed by resolution of the company in general meeting, or by order of Court.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2831-42, dated 8th December 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

C. A. BARRON,

Chief Secretary to Government, Punjab.

1.—*All communications* relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (II of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) should be addressed to the Controller of Patents and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed.

2.—*Directions* for the guidance of inventors and others are given in the Indian Patents and Designs Act, 1911 (price, 10 annas), and in the Indian Patents and Designs Rules, 1912 (price, 2 annas). These should be consulted before an application is made to the Controller.

3.—*Advice.* The Patent Office cannot undertake (1) to give opinions on the interpretation of Patent Law, or on the advisability of protecting inventions and designs, or on their infringement; (2) to make searches in respect of information available in the public room; (3) to recommend any particular agent; or (4) to assist in the disposal of inventions. Applicants are warned that the Indian Patents and Designs Act, 1911, is in force in British India only, and patents granted under it do not extend to the United Kingdom or any of the British possessions. In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. I.—The Senate approved the Syndicate's recommendation—

(1) that the degrees specified in Appendix I of the Syndicate Proceedings, dated the 22nd October, 1915, be conferred upon the candidates named therein, who are duly certified to have passed the examinations and fulfilled the other conditions necessary for the several degrees referred to in accordance with the Rules and Regulations now in force, and with the provisions of section 16 of the Universities Act, 1914 (*vide* Appendix I).

II.—Read the second proposal of the Syndicate, *viz.*,—

(2) that the list of Examiners appointed by the Syndicate for the Arts, Oriental and Science Faculty Examinations of 1916, be approved (*vide* paragraph 3 of the Syndicate Proceedings, dated the 4th June, 1915, and paragraph 19 of the Syndicate Proceedings, dated the 17th September, 1915.)

Mr. Durga Das enquired whether Examiners who set papers that were not in accordance with the Regulations or courses fixed were re-appointed. He was informed that if any such case occurred, it was carefully considered by the Board concerned, and also by the Syndicate. Instances were quoted of Examiners not being re-appointed on account of insufficient care in setting papers.

The list of Examiners was then approved (*vide* Appendix II.)

III.—The following proposals were approved without discussion —

(3) that the recommendations of the Syndicate relating to the re-appointment of Law Lecturers, be approved (*vide* paragraph 20 of the Syndicate Proceedings, dated the 17th September 1915).

(4) that the recommendations of the Syndicate relating to the payment of Rs. 509-7-5 to the Sports Tournament Fund, in order to remove the deficit, be approved (*vide* paragraph 9 of the Syndicate Proceedings, dated the 22nd October, 1915.)

(5) that the recommendations of the Syndicate relating to the courses of reading in Physiology and Hygiene for the Matriculation Examination, be approved (*vide* paragraph 8 of the Syndicate Proceedings, dated the 4th June, 1915), (*vide* Appendix III.)

IV.—Read proposal No. 6.—

(6) that the recommendations of the sub-committee relating to the School Final Examination, North-West Frontier Province, be approved (*vide* paragraph 12 of the Syndicate Proceedings, dated the 20th November, 1914.)

Mr. Sain Das expressed the view that the test for entrance into the University should be conducted by the University. In the case of the Panjab it was proposed that the Matriculation and School Final Examination should be controlled by a Board on which the University was represented, and that the written examination should be conducted by the University office. Mr. Sain Das asked why there should be a different kind of arrangement in the case of the North-West Frontier Province.

The Registrar pointed out that in lieu of Matriculation the University already accepted examinations neither controlled nor conducted by itself. Mr. Richey explained that when the scheme for the North-West Frontier Province School Final was drawn up it was not known what the Panjab proposed to do. He thought it quite possible, if it was desired, for the University to be represented on that Board. As a matter of fact the two affiliated colleges in the province were represented.

The Syndicate's proposal was then put to the vote and carried (*vide* Appendix IV.)

V.—With reference to the next item, proposal No. 7—

(7) that the Regulations for the Joint Matriculation and the School Final Examination, Punjab, be approved (*vide* paragraph 6 of the Syndicate Proceedings, dated the 1st October 1915.)

An objection was raised by Lala Moti Sagar that he had not received some of the papers referred to, and in particular the proceedings of the Arts Faculty dealing with this question. It was stated that these proceedings had been circulated several weeks previously.

As it appeared, however, that several Fellows had not seen these papers, the Vice-Chancellor remarked that he would welcome a motion for postponing consideration of this item. The matter was accordingly postponed.

VI.—The last two proposals were carried without discussion, *viz.*,—

(8) that the recommendations of the Syndicate relating to the amendment proposed in the Regulations for the B. A. Examination to admit to this degree persons who having passed an Honours Examination of the Oriental Faculty have also passed in the subject of English in the Intermediate and B. A. Examinations, be approved (*vide* paragraph 19 of the Syndicate Proceedings, dated the 4th June, 1915) (*vide* Appendix V);

(9) that the recommendations of the Syndicate relating to assigning of Fellows to Faculties, be approved (*vide* paragraph 9 of the Syndicate Proceedings, dated the 1st October, 1915) (*vide* Appendix VI).

Courses of reading in Physiology and Hygiene suggested by the Board of Studies for the Matriculation Examination of 1918 were considered (*vide* Appendix). Dr. Caleb criticised Barnett's *The Making of the Body* being included as a text-book, and at his suggestion, it was resolved to substitute Hill's Physiology for Beginners (Longmans) instead of that book. The amended list including Hill's Physiology for Beginners (Longmans) Cathcart's First Book in Physiology and Hygiene (Macmillan). Blackham's Primer of Tropical Hygiene (S. J. Amb. Association) was then adopted.

It was resolved not to include in the University Calendar books suggested by the Board for teachers, as the Board could issue any suggestions for teachers that they wished to.

APPENDIX IV.

Proceedings of the Committee appointed by the Syndicate to report on the proposed School Final Examination in the North-West Frontier Province at a Meeting held in the Senate Hall, Lahore, on Monday, the 16th November 1914, at 6-15 p.m.

PRESENT:

The Hon'ble Mr. J. C. Godley, M.A. C.S.I. (*in the Chair*).

E. Tydeman, Esquire, B.A.

G. A. Wathen, Esquire, M.A.

S. K. Datta, Esquire, B.A., M.B., CH. B.

Fazl-i-Husain, Esquire, M.A.

A. C. Woolner, Esquire, M.A., *Registrar*.

Read a letter No. 564-N. of the 30th June 1914, from the Secretary to the Chief Commissioner of the North-West Frontier Province, relating to the proposed School Final Examination of that Province.

The Committee considered the replies that had been made to the criticisms and doubts expressed by this Committee on previous occasions. The most important point was, in the opinion of the Committee, the question as to the standing of the Inspector of Schools, who would under the proposed scheme be responsible for the award of School Final Certificates. It was noted that the Inspector was to be a European member of the Indian Educational Service, and that the Government of India had been informed that the appointment of such an Inspector was essential to the scheme. With regard to the difficulty of testing some subjects with a single paper, it was noted that it was now proposed to set two papers of two hours each for English, Mathematics, and History and Geography. It was also noted that History and Geography would not be separated so long as the University does not separate them.

With regard to the undesirability of the same school preparing for both the School Final and the Matriculation Examination, it was noted that this could be prevented by the Syndicate declining to recognise for the purposes of Matriculation any High School in the North-West Frontier Province preparing candidates for the School Final. With regard to scholarships it was noted (*a*) that students from the North-West Frontier Province would not be eligible for the Panjab Government scholarships, and (*b*) that University scholarships are awarded on the results of the Matriculation Examination and cannot be awarded on the results of any other examination. With regard to other points previously discussed it was agreed that if this School Final was instituted the provincial authorities should be considered to be entitled to make their own arrangements.

Finally it was resolved to recommend to the Syndicate that a School Final Certificate from the North-West Frontier Province including a pass in a recognised group of Matriculation subjects should be accepted for the purposes of Matriculation, subject to the appointment of a properly qualified Inspector of Schools, and provided that the University continues to be satisfied that competent persons are appointed as examiners and that the standard of the examination is kept up to the Matriculation standard. Mr. Fazl-i-Husain was opposed to any recognition of this School Final Certificate on the general ground that all examinations for admission to the University should be conducted by the University.

Confirmed.

J. C. GODLEY, *Chairman*.

A. C. WOOLNER, *Registrar*.

APPENDIX V.

To add a Regulation 11 A, after Regulation 11, cal., p. 161 (*vide* paragraph 18 of the Syndicate Proceedings, dated the 9th April 1915).

"Any candidate who has passed the Honours Examination of the Oriental Faculty in Arabic, Sanskrit or Persian, and who has passed in the subject of the English in the Intermediate Examination of the Arts Faculty under Regulation 12 of the Regulations relating to Diplomas and Literary Titles in Oriental Languages, may be admitted to the Bachelor of Arts Examination in English only, on payment of the usual fee, and if he obtain pass marks in this subject he shall be deemed to have passed the Bachelor of Arts Examination."

NOTE.—This regulation as drafted above is intended to give effect to the intention of the Syndicate and of the Arts Faculty whose recommendation was accepted.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2831-43, dated 8th December 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District ce

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2381-43, dated 8th December 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

C. A. BARRON,

Chief Secretary to Government, Punjab.

1. The first item on the agenda paper was passed without comment, *viz.*—

That the recommendations of the Syndicate relating to the Nomination Rolls of candidates for appointment as Extra Assistant Commissioners, be approved (*vide* paragraph 3 of the Syndicate Proceedings, dated the 26th November 1915).

2. The second item comprised the proposed regulations for the Joint Matriculation and School Final Examination of the Panjab, *vide* paragraphs 2 and 1 of the Arts Faculty Proceedings, dated the 26th April and 11th May 1915, respectively; paragraph 5 of the Science Faculty Proceedings, dated the 7th April 1915; and paragraph 6 of the Syndicate Proceedings, dated the 1st October 1915

Rai Sahib Moti Sagar raised the objection that these proposed regulations had not been referred to the Oriental Faculty. The Senate had asked for the opinion of "the Faculties concerned." After some discussion the Vice-Chancellor ruled that technically the Oriental Faculty was concerned with these regulations. Mr. Tydeman then moved: "That as these regulations have to do with Anglo-Vernacular High Schools and as no Vernacular High School preparing candidates in the Oriental Faculty exists we proceed with the discussion." This motion was seconded by Mr. Hemmy and opposed by Mr. Fazl-i-Hussain. On being put to the vote the motion was lost by 9 to 23. The Hon'ble Mr Shadi Lal then moved that these regulations be referred for opinion to the Oriental Faculty. The motion was seconded by the Hon'ble Mr. Shafi. Mr. Richey and Mr Das Gupta questioned the desirability of continuing to postpone the matter. On being put to the vote the motion was carried. The Vice-Chancellor then said that apart from the objection that had been raised he understood that a number of Fellows were still desirous of further information. In order that the matter could be proceeded with on the next occasion he would request such Fellows to state in the meantime the nature of the information they desired. Mr. Das Gupta suggested that full particulars should be supplied with regard to School Finals in other Provinces. With regard to school records he wished to know how entries were made in other Provinces; whether such entries were to be monthly or weekly; whether they would be determined by oral or written tests; whether the responsibility for these entries would rest solely with the Headmaster or partly with the Education Department, and what would be the amount of control exercised by the Inspector. As regards school courses, what would be the additional subjects? Would they be optional or compulsory? Would there be an examination in all optional and compulsory subjects? The evil of too many examinations being recognised, how was this scheme intended to mitigate that evil? With reference to a statement in the Government of India letter about the special circumstances of each Province, how had School Finals in other Provinces been differentiated with regard to such circumstances? Have Secondary School courses been extended in other Provinces? Had the power of the University with respect to the recognition of schools been modified in any other Province? It was understood that emphasis was to be laid on physical and manual training: in what way was this to be provided for? Mr. Richey suggested that the information supplied should include the method of conducting practical tests, and the formation of the School Final Board in other Provinces.

3. The third item was passed without discussion, *viz.*—

That the recommendations of the Syndicate relating to the amendment in the Regulations for the Intermediate Examination of the Science Faculty and of the First Professional Examination, providing "that women candidates who had passed the Intermediate Examination in Arts would be able to qualify in one year for admission to the courses of the First Professional Examination," be approved (*vide* paragraphs 9 and 15 (*c*) of the Syndicate Proceedings, dated the 4th June and 5th November 1915, respectively, and paragraph 2 of the Science Faculty Proceedings, dated the 10th May 1915, *vide* Appendix I).

4. Read the fourth proposal—

That the recommendations of the Syndicate relating to the amendment providing that each of the Boards of Studies should be elected by a single Faculty, and in particular the Boards in English, in History and Geography, and in Mathematics by the Arts Faculty; those in Oriental Languages by the Oriental Faculty; and those in Science subjects including Engineering and Drawing by the Science Faculty, be approved (*vide* paragraphs 14 and 15 (*b*) of the Syndicate Proceedings, dated the 21st May and 5th November 1915, respectively).

Mr. Tek Chand expressed the opinion that the Arts Faculty should take part in the election of Boards of Studies in Oriental Languages as Oriental Languages were comprised among the subjects of the Arts Faculty. Mr. Devi Dayal considered it would be an anomaly for the Arts Faculty to elect Boards of Studies in Mathematics as Mathematics was a subject for the B. Sc. Examination After some further discussion it was resolved that this question be referred to the several Faculties concerned, for the opinion of each Faculty on the existing rule and the proposed amendments.

5. Read proposal 5—

That the recommendations of the Syndicate relating to the amendments, proposed in the Regulations for the Matriculation Examination providing for the abolition of the re-examination of papers and providing "that a candidate who obtains 33 per cent. in the aggregate of compulsory subjects but less than the pass percentage required by not more than five marks in one subject (written) only shall be deemed to have passed the examination," be approved (*vide* paragraphs 7 and 15 (*a*) of the Syndicate Proceedings, dated the 21st May and 5th November 1915, respectively).

Mr. Tydeman proposed to substitute "three marks" for "five marks." This amended ment finding no seconder, the Syndicate's proposal was approved (*vide* Appendix II).

6. Read item 6—

That the recommendations of the Syndicate relating to making Mathematics and Science elective subjects in the Intermediate Examination, Arts Faculty, be approved (*vide* paragraphs 7 and 10 (*a*) of the Syndicate Proceedings, dated the 1st October and 26th November 1915, respectively, and paragraph 2 of the Arts Faculty Proceedings, dated the 11th May 1915).

Mr. Das Gupta said he believed that this proposal was based on the idea that Intermediate Mathematics was too difficult. The Board of Studies in Mathematics did not consider that High School Mathematics was sufficient for any Graduate and had proposed to meet the difficulty by making only one mathematical paper compulsory. The Syndicate's proposal was carried by 40 votes to 3 (*vide* Appendix III).

7. The remaining items of business were passed without discussion, *viz.*—

7. That the recommendations of the Syndicate with regard to the percentages to be required for the different classes in the M. A. and M. Sc. Examinations, be approved (*vide* paragraphs 8 and 10 (*b*) of the Syndicate Proceedings, dated the 1st October and 26th November 1915, respectively, and paragraphs 4 and 1 of the Science and Arts Faculty Proceedings, dated the 1'th January and 26th April 1915, respectively) (*vide* Appendix IV).

8. That the recommendations of the Syndicate regarding the nomination of members of the Board of Accounts, 1916, be approved (*vide* paragraph 9 of the Syndicate Proceedings, dated the 5th November 1915).

9. That the reports of the University Auditor on the accounts of the University from February to June 1915, be approved (*vide* paragraphs 5 and 1 of the Syndicate Proceedings, dated the 5th November and 3rd December 1915, respectively (*vide* Appendix V).

(Only that paragraph has been printed in which change is proposed.)

OLD REGULATION.

14. Before the publication of the results cf any examination they shall be submitted, together with a statement of the percentage of passes in the whole examination and in each subject, for the current and the five preceding years, to the Board of Moderators appointed in the manner provided in Regulation 14-A.

The Board may then order the publication of the results. If, however, the Board considers, after examination of the figures submitted, that, there has been a distinct change of standard in the whole examination or in a particular subject, the Board may refer the matter to the Examiners concerned for a report on the apparent change of standard, and may suggest a specific modification of the results. In the event of a similar reference having been previously made by the Registrar, the replies of Examiners to this may be taken without a further reference by the Board.

If the Board and the Examiners now agree on the modification (if any) to be made, the Board shall authorise the publication of the results accordingly.

If, however, the Board and the Examiners (or one of these) do not agree, or if no report can be obtained from an Examiner, the Board if unanimously of the opinion that there has been a distinct change of standard, may order a re-examination of any set of papers by an Examiner appointed by the Vice-Chancellor, or in his absence by the Director of Public Instruction.

In the Middle School and Matriculation Examinations, as soon as the results have been tabulated, the Registrar shall prepare a list of the candidates, who, having passed in the aggregate, have failed by not more than five marks in one compulsory subject only, and in order to guard against any undue severity or error in valuing the answers their papers in the subject shall be re-examined by the Head Examiners, who should be required to report with the least possible delay the addition, if any, made in the marks originally allotted. The Examiner shall be paid for the papers re-examined at the usual rate.

APPENDIX V.

FROM

MESSRS. BASANT RAM & SONS,

Auditors of Accounts.

To

THE REGISTRAR,

University of the Punjab,

Lahore.

Dated Lahore, the 11th October 1915.

DEAR SIR,

WE beg to report that we have audited the accounts of the Panjab University for the months of February and March 1915. We have also verified the statements showing the balances of the various accounts and the abstract of the transactions of the current account for the year ending 31st March 1915, with the books and have found the same in accordance therewith. The following accounts were checked by us :—

(1) The Current Account.

(2) The Oriental College Account.

(3) The Law College Account.

(4) The Special Endowed Trusts Account.

(5) The General Endowment Fund Account.

(6) The Unendowed Special Subscription and Donations Account.

(7) The Provident Fund Account.

(II) We have examined the cash books of the various accounts as also the pass books of the Floating Accounts with the Bank of Bengal, Lahore.

(III) The balances at the end of each month have been verified with those shown in the bank pass books, taking into account the amounts of cheques which remained uncashed at the end of each month during the period in question.

(IV) The balances of the different accounts in G. P. Notes held by the Bank of Bengal, Lahore, on behalf of the University have also been verified with the certificate sent by the bank.

(V) The following defects were noticed by us in the course of our audit :—

CURRENT ACCOUNT.

Receipts.

Noted. This will be done.

Counterfoil of a receipt between Receipt Nos. 2430 and 2431 and counterfoil of Receipt No. 1171 have been left blank. We are of opinion that all receipt books should be machine numbered.

Payments	
In the following cases payee's receipts were wanting :—	
(*a*) 1. Voucher No. 1215 for Rs. 80 and 25. 2. Voucher No. 1320 for Rs. 16-1. 3. Voucher No. 1321 for Rs. 18-5. 4. Voucher No. 1322 for Rs. 3,000. 5. Voucher No. 1332 for Rs. 20. 6. Voucher No. 1390 for Rs. 100. 7. Voucher No. 1395 for Rs. 45-14. 8. Voucher No. 1402 for Rs 20.	Second reminder has been sent for these receipts.
(*b*) *Voucher No.* 1334 *for Rs.* 24-3.—In this case an anna receipt stamp should have been affixed.	Written for.
(*c*) *Voucher No.* 1330 *for Rs.* 61-5.—In this voucher Rs. 5 was paid on account of V.-P. P. But the V.-P. P. receipt is for Rs. 5-11.	Mistake of the Law College Office. This will be adjusted.
(*d*) *Voucher No.* 1389 *for Rs.* 48-14.—In this voucher Rs 16-6 paid on account of the cost of 52 earthen pots at 5 annas each. By calculation it should be Rs. 16-4 and not Rs. 16-6.	Two annas refunded.
(*e*) We have not been shown vouchers for certain payments which are said to be of a confidential nature.	
(*f*) Proper receipts are not obtained for scholarships that are paid monthly.	This will be done.
(*g*) Vouchers have not been properly numbered as after voucher No 1337 No. 1378 begins.	This is an oversight of the Account Branch in following the serial number.
Imprest.	
In the current cash book the cash imprest in the hands of the Registrar on 31st March 1915 is shown to be Rs. 500, but according to the imprest book the balance in hand on that date is Rs. 481-0-9. Either the imprest in hand should have been recouped or the actual imprest in hand should have been shown.	Yes, on the last day of the financial year this should have been done.
Government grant for Periodicals.	
We understand that Government made a grant of Rs. 350 for periodicals for the use of the University Library. This amount has not been accounted for in the books and has been spent direct without any entry having been made in the University Accounts. To have a proper control it is necessary that such sums should pass through University books.	This will be entered in future in the accounts of the University.
In conclusion, we beg to state that the cash books are properly kept, but we are of opinion that greater care and attention should be bestowed on the ledgers.	I fully agree.

Yours faithfully,

BASANT RAM & SONS.

Cash Book.

At the end of April 1915 there was a difference of annas 7 between the Cash Book and the Cashier's memorandum of Receipts which was adjusted in the month of May 1915? — Adjusted in July and not in May.

Again there is a similar difference of annas 7 in the month of June 1915 which we are told has been adjusted in September 1915.

This is not so as the difference was adjusted in July.

Imprest Account.

We beg to repeat the remarks made in our last report regarding the recoupment of the imprest in hand at the end of each month with the view to see that the imprest account tallies with the Cash Book.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2881-42, dated 8th December 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

C. A. BARRON,

Chief Secretary to Government, Punjab.

4.	Comparative Religions	200
5.	All the other sub-sections of Religion	200
	Total ...	20,000

4. The Sub-Committee decided to recommend that the grant for each year should be spent proportionately on each department during the year. Calculated on that basis the amount available during the current year would be roughly as follows :—

		Rs.
Group I	... ...	400
Group II	... ...	1,260
Group III	... ...	1,700
Group IV	... ...	640
	Total ...	4,000

5. It was further decided that after the allotments recommended by the Sub-Committee are approved by the Committee, the special Sub-Committees which overhauled the various departments of the Library and drew up lists of proposed additions should be asked to meet and draw up fresh lists of books with special reference to the amount available for expenditure under each head.

6. As regards the disbursement of the additional grant of one hundred rupees sanctioned by Government the Sub-Committee noted that the Government Committee had recommended the enhancement of the monthly grant for two objects; *viz.*, the improvement of the prospects of the staff and the establishment of a Provident Fund. The Sub-Committee took into consideration the qualifications of the various members of the staff and the work they had to do and decided to recommend that the Librarian's salary should be a graded one from Rs. 100—10—150. Lala Labhu Ram is at present drawing Rs. 100 per mensem and should be given his first increment with effect from 1st January 1916, and the next increment from 1st April 1917. The salary paid to the present incumbent of the office of Assistant in the English Department, *viz.*, Rs. 50 is, in the opinion of the Sub-Committee, more than sufficient for a man of his qualifications and the work he has to do. The Sub-Committee think it will be necessary to revise the pay of this post when it is decided to employ a person of higher qualifications who can undertake to do a part of the work at present done by the Librarian and who can act for that officer whenever necessary.

As regards the two Assistants in the Vernacular Department who are now drawing Rs. 30 per mensem the Sub-Committee are of opinion that they are inadequately paid and that their salaries should be raised to Rs. 40 by annual increments of rupees two, the first increment to take effect from 1st January 1916 and the next from 1st April 1917. The Sub-Committee decided further to recommend that the salaries of the chaprasies be raised to Rs. 10 per mensem and that they be allowed to participate in the benefits of the Provident Fund when it is started.

7. The Sub-Committee decided to recommend that a Provident Fund be started on the understanding that the amount to be contributed thereto by the Library each year would depend on the balance available of the increased monthly grant of Rs. 100. The Sub-Committee were of opinion that the addition of Rs. 100 to the monthly grant sanctioned by the Government should be regarded as set apart for the benefit of the staff and they thought that on that understanding there would be for the first three years at any rate more than enough to maintain the Fund on the 10 per cent. basis. They decided to recommend that the balance each year for the first three years should be funded so that the 10 per cent. basis could be maintained for as long as possible, but they thought that the staff should clearly understand that so far as could be foreseen at present there was no prospect of the Library Committee being able to continue the Provident Fund on this basis when they approached their maximum salaries. The Committee, they felt, could not guarantee the continuance of any contribution at all once the maximum salaries were reached.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2881-42, dated 8th December 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2831-42, *dated 8th December* 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

C. A. BARRON,

Chief Secretary to Government, Punjab.

Notices of the Patent Office.

PUBLIC ROOM, OPEN 11 A.M. TO 4 P.M.; SATURDAYS, 11 A.M. TO 1 P.M.

1.—*All communications* relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (II of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) should be addressed to the Controller of Patents and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed.

2.—*Directions* for the guidance of inventors and others are given in the Patent Office Handbook (price one rupee), which contains the Indian Patents and Designs Act, 1911, the Indian Patents and Designs Rules, 1912, the Indian Patents and Designs (Temporary Rules) Act, 1915, the Indian Patents and Designs (Temporary) Rules, 1915 together with current regulations and instructions. When cheques are offered in payment of fees, it must be clearly understood that the office cannot hold itself responsible for any delay that may occur in the collection of cash on the cheques; any cheque not payable in Calcutta is subject to commission. In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2881-42, *dated 8th December* 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

Chief Secretary to Government, Punjab.

3.—*Advice.*—The Patent Office cannot undertake (1) to give opinions on the interpretation of Patent Law, or on the advisability of protecting inventions and designs, or on their infringement; (2) to make searches in respect of information available in the public room; (3) to recommend any particular agent; or (4) to assist in the disposal of inventions. Applicants are warned that the Indian Patents and Designs Act, 1911, is in force in British India only, and patents granted under it do not extend to the United Kingdom or any of the British possessions. For information regarding patents in countries other than India applications should be made to the Patent Offices in the countries concerned.

When cheques are offered in payment of fees, it must be clearly understood that the office cannot hold itself responsible for any delay that may occur in the collection of cash on the cheques; any cheque not payable in Calcutta is subject to commission. In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. Stamps will not be received in payment of fees.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2831-42, *dated 8th December* 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

C. A. BARRON,

Chief Secretary to Government, Punjab.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2581-43, dated 8th December 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

C. A. BARRON,

Chief Secretary to Government, Punjab.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2881-43, dated 8th December 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

C. A. BARRON,

Chief Secretary to Government, Punjab.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2831-42, dated 8th December 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

C. A. BARRON,

Chief Secretary to Government, Punjab.

I.—This Institution has been established at the desire, and with the assistance, of the Punjab Government, in order to provide a Public Library for the use of all classes in the Province.

II.—The objects of the Institution are—

(a) to provide a Public Library for the use of all classes of the community which shall contain official publications as well as general literature, both Oriental and of other kinds;

(b) to provide a Reading Room which shall be open to the public free of charge.

III.—The Institution seeks to contribute to the intellectual advancement of the country—

(a) by lending a helping hand to those who have the aspirations of a student or a scholar, by placing within their reach those literary and scientific treasures which they might find it difficult or impossible to acquire for themselves;

(b) by rendering accessible in one place valuable information that may be required for local historical research, or for any other enquiry that depends upon records rather than experience;

(c) by assisting those who are engaged in any effort for the good of the people by enabling them to consult the stories of similar efforts in countries more advanced than India, from whose experience India may well lay to heart valuable lessons; and

(d) by providing, on an adequate scale, for the general public means, both of discursive reading in various fields of literature and of more profound studies in specialities.

IV.—The Committee of the Library earnestly appeal to all interested in the moral and intellectual development of this country for help and assistance to enable the institution to possess not only what is best in Western Literature, but also " a thoroughly representative collection of Eastern works," and to this view they appeal to Indian noblemen and gentlemen and indeed to all, of whatever race or creed, who can appreciate what oriental thought has effected in the past, for help in securing for the Public Library those valuable collections of manuscripts and oriental books (in the possession of Chiefs and gentlemen) whose usefulness is considerably curtailed by their inaccessibility to the public.

V.—A donation of Rs. 50 entitles the donor to the privileges of a life member, thereby enabling him not only to obtain a private benefit, but also to contribute towards an excellent public object.

VI.—The Library, being open to the whole Province, deserves support from all parts of the Punjab, and the Committee ask Municipal Committees, District Boards and Indian States to make monthly grants of money that the institution may be maintained in a state of thorough efficiency.

VII.—Copies of the Alphabetical and Classified Catalogues of works of all kinds in the Library are procurable on application to the Librarian.

VIII.—The Rules are given below—

I.—Constitution and Committee.

1. The Committee shall consist of not less than 14 members, including the President and Secretary.

2. The Deputy Commissioner of Lahore, the Director of Public Instruction, Punjab, and the Director of Agriculture and Industries, Punjab, shall be *ex-officio* members.

3. The Municipality of Lahore, the Punjab University, the Bishop of Lahore, and the Committee of the Lahore Gymkhana (late Lahore and Mian Mir Institute) shall each nominate a member. The members so appointed may be changed from time to time by the authorities nominating them.

4. The life members shall annually elect two members to be on the Committee for one year.

5. The remaining members will be nominated by Government, who will also appoint the President.

6. The Committee shall appoint its own Secretary.

7. Standing Sub-Committees shall be appointed by the Committee to carry on the management of the different departments of the Library.

8. The Secretary shall be a member of every Sub-Committee.

9. A meeting of the Committee shall be held on the first Monday in every month. Three members shall form a quorum.

10. A special meeting of the Committee may be called by the President or a Sub-Committee at a week's notice.

11. A general meeting of the life members and Committee shall be held once a year in the month of April, and at the meeting the two annual members to represent the life members shall be elected. Absent life members may vote at the election by proxy.

12. The current business of the Committee to be brought up at each monthly meeting shall include the examination of the Accounts, of the Suggestion books, of orders to Booksellers, of breaches of the Rules, etc.

13. The funds shall be kept in the name of the Punjab Public Library by the Bank of Bengal or as the Committee may from time to time direct.

14. All cheques shall be signed by the Secretary and a member of the Committee appointed by it for the purpose.

15. Expenditure on fixed charges, for which sanction already exists, and on contingencies up to a limit of Rs. 50 a month, may be incurred on the joint authority of the persons empowered to sign cheques. All other expenditure requires the previous sanction of the Committee.

16. A donation of money of Rs. 50 or upwards, or of books not already in the Library accepted by the Committee and valued by it as worth not less than Rs. 50, shall entitle the donor to the privileges of a life member.

17. Any donor of books may make it a condition of the donation that any of the books he gives shall not be lent out except to himself.

18. Life members shall be exempt from payment of deposits, subscriptions and other fees required by the rules.

19. The Punjab Government shall, in consideration of its interest in the "Punjab Public Library," have the reversionary right in the books, furniture and other property of the Library in the event of its dissolution, and sh ll further have power to dispose of the same in such manner as to it may seem fit, and as shall be in accordance with law.

20. The Library may be dissolved with the consent of the Punjab Government, but not otherwise.

II.—The Reading Room.

1. The Reading Room is open to the public free of charge.

2. Books may not be removed from the shelves by any one except the Librarian.

3. Catalogues and application forms are on the table. The Librarian will get any book for which a form is handed to him; and books must be returned to him before leaving.

4. The Committee will exclude from the building persons who disregard any rules or who damage the property of the Library.

5. Closed Days.—The King-Emperor's Birthday, also from 1st to 7th October, and from 1st to 7th April inclusive.

6. Daily Hours.—In the winter 8 A.M. to noon and 3 to 8 P.M. and in the hot weather 7 to 11 A.M. and 4 to 8 P.M., and on Sundays 2 to 5 P.M. in the winter and 5 to 7 P.M. in the hot weather.

III.—Rules for Lending out Books.

Books will be issued on the following conditions:—

1. An applicant must deposit Rs. 10 with the Secretary. The deposit will be liable to forfeit for injury or loss of a book, or for breach of any of the rules. Books lost must be replaced or paid for.

Note.—The deposit will not be required from Government servants, Barristers, Pleaders and others approved of by the Committee.

2. An annual subscription of Rs. 5 must be paid in advance.

3. Not more than ten volumes may be kept out on one subscription.

4. Residents at Lahore or Mian Mir shall return within two months every book so taken out. To residents at other places ten days longer will be allowed. But all books lent out must be returned by the 30th September and 31st March each year.

5. The cost of forwarding books will be recovered by sending them by Value-Payable Post. Any charges due under Rules 1 and 2 may be added.

6. Books may not be transferred from one person to another.

7. The Committee will reserve from issue, under these rules, new or valuable books at its discretion, or may recall after a fortnight any book which is in special request.

8. Forms of application for books can be supplied, and their use is requested, but is not obligatory.

9. Deposits under rule 1 (if free of claims) will be returned on request to persons who have no books of the Library in their possession.

10. A reminder will be sent, as soon as a book is overdue, to be repeated a week after.

11. If no notice is taken of the two reminders, an intimation should be sent to the borrower that he will be liable to a fine of one anna a day per overdue volume from the date of the second reminder, unless the books are returned or permission for renewal is obtained.

12. No books shall be issued to a defaulting borrower, until he has returned the books already with him, and paid the fine due from him.

13. The name of the defaulting borrower shall be brought to the notice of the Committee at their next meeting, if the intimation mentioned in (11) has been disregarded, and the Committee may then impose a fine of one anna per day as provided in (11).

14. Borrowers who neglect to return books when requested at the time of stock taking shall be liable to the fine mentioned in (11).

15. Rule (7) should be enforced when a book has been in request by two or more persons.

16. THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2831-42, dated 8th December 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. Stamps will not be received in payment of fees.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2831-42, dated 8th December 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

C. A. BARRON,

Chief Secretary to Government, Punjab.

Notice.

Miscellaneous Notices and Advertisements.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2831-42, dated 8th December 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

C. A. BARRON,
Chief Secretary to Government, Punjab.

Notice.

The Fund is now of ten years' standing and as has a balance of over three-and-half lakhs with Government on four per cent. interest. For forms of applications and rules of the Fund apply to the Comptroller, India Treasuries, Imperial Secretariat Buildings, Calcutta.

When all had been presented, the Vice-Chancellor delivered the following address :—

The Senate of the University of the Panjab meets to-day for the thirty-seventh time in Annual Convocation.

As an organization its history covers one-third of a century. Upon much of that history we are able to look with satisfaction. It is a record of continuous growth and gradual improvement. The number of students connected with affiliated Colleges in 1885, or the third year after the incorporation of the University, was 538, while in 1915 it is 5,544. The rate of growth has been especially rapid in the number and enrolment of the Arts Colleges. As illustrating this, we note that in 1885 these were two in number as against 18 at the present time. There were then 225 Undergraduate students, while now there are 4,821. In the former year 234 passed the Matriculation test and in the latter 3,068. The total numerical output of these thirty-three years may be thus summarized, leaving out of consideration that large number who were unsuccessful in obtaining the degrees which they sought.

Whole number of passes—M. Sc., 46; M. A., 432; B. Sc., 142; B. A., 3,642; the Pleadership Examination, 966; LL. B., 690; L. M. S., 397; M. B., B. S., 148; B. O. L., 68; M. O. L., 19; Oriental Titles, 1,252; or a total of 7,802, who have received diplomas or degrees in Medicine, Law, Science, Arts or Oriental Studies.

Statistics such as these have a definite interest and value, especially for those who think it worth while to study the tendencies of our times; and I take it that you, gentlemen of the Senate, are by no means behind others in your desire to measure present forces, with a view to prepare yourselves and those whom you represent to deal with their inevitable future development.

In previous years reference has been made to the rapidly increasing number of youths coming up to the University from the schools scattered over the vast territory lying between the Jamna and the frontier of Afghanistan and containing a population of some thirty millions.

Regarded from the point of view of its relation to this large population, our total of 5,544 may seem, by no means, large, but viewed in relation to existing openings for the ordinary Graduate in Arts, Law and Oriental Studies, this number is actually startling.

It is all very well for us to descant upon the desirability of directing the minds of these young men to industrial pursuits, but conditions, as they exist up to the present moment, are such as to cause it to seem little short of mockery for us to advise the rank and file of graduates, such as I see before me to-day, to devote themselves to the mechanical arts, the tilling of the soil or the development of commerce. Training they have not had, land they do not possess, and of capital the majority of them have little.

For certain recognised forms of useful activity our students are receiving admirable training. They are being qualified for various important posts in the several Departments of Government service, for the work of teaching, and some of them for the professions of Medicine and Law. In each of these walks of life there is a constant demand for a certain number of well-equipped men; but the supply of men who have reached the point where they not unnaturally expect to find a field for their energies in one of the learned professions or in the Public service, seriously threatens to exceed the demand. The legal profession is said to be overcrowded, and the number of persons annually admitted in this Province has been definitely restricted. Medicine [illegible] for a score or two of recruits each year and the higher posts in Government service are speedily filled by the entrance of an exceedingly small proportion of the total out-put of the Colleges.

The father sends his son to the schools and to the College throughout a period of years, and we send him forth by and by with the stamp of the University upon him. He is what we have made him; but there is apparently, in many instances, no place for him in any of the spheres for which he feels himself to be fitted and into which he had hoped to enter. I personally know not a few men, whose plight, after having honourably completed the courses prescribed by the University, was such as to call forth one's deepest sympathy. An education they were determined to acquire, and we probably all unite in commendation of such ambition. The course followed by them was the only one that seemed to them likely to lead to places of competency and social influence, and yet, at an early day, they have had forced upon them the knowledge that they and

such as they are not in demand. More than one graduate, after a fruitless search for a position where his particular type of ability and training could be turned to account, has been heard to say, 'There seems to be no place for me anywhere,' and has asked us to suggest to him what he is to do. Enquiries such as this, and the knowledge that these questions represent the state of perplexity of a multitude, lead one to wonder if, after all, we are doing all that should be done and to question whether our system may not be suffering from defects that are by no means all upon the surface.

It is surely unnecessary to affirm, in this presence, that such an enquiry does not spring from any latent suspicion that education in India is in danger of becoming too widespread. On the contrary, most of us will cordially agree, I am sure, that no such peril threatens us. The country needs more schools and more Colleges, and it is desired, upon all hands, that these should be improved in quality at a rate proportionate to their increase in numbers.

But may I be permitted to say that in my judgment, the youth of this Province are suffering a serious disadvantage by being, if I may so express it, forced into one or two particular moulds, and having been thus shaped, are sent forth into the world ill-prepared for efficient service outside the scope of two or three professions which, as has been intimated, can only furnish a sphere for the activities of the few.

It is my conviction based upon some experience, and a fairly earnest attempt to measure sympathetically the requirements and the possibilities of Indian youth, that the time has come when those charged with the responsibility of providing for the training of the young, must address themselves to the task of bringing education, and the appliances and processes pertaining thereto, into a more direct relation to the ordinary activities and needs of the daily life of the common world about us than has hitherto been realized. We are by no means prepared to join with the satirist in describing a University, even one in which mere mental discipline and the gathering of facts are the chief aim, as a place where "One term's wave of students chased another like the waves of the sea; only the old Professors remained steadfast like the pyramids of Egypt; but in these University pyramids no wisdom lay hidden." And yet, is there not danger of our forgetting that the University of to-day must, if it is to fulfil its part, take not only all knowledge, but all human life, as well, for its province?

One of the greatest modern developments in industrial processes has, I believe, been in the utilization of waste-products. Such products do not exist in an ideally organized industry. Neither should an ideal University produce what cannot be utilized. If the great majority of graduates—those who are not destined to fill places in the tasks of higher teaching or research—are not ready to take a reasonable and useful place in the community, and are driven to merely parasitic occupations, such a condition will be a menace to the public welfare.

As a country progresses, people alter their ways. Educational institutions, if they are efficiently and powerfully to lead mankind must sometimes alter theirs. They must be watchful against the tendency to detachment from the human life that moves, in all its complex currents, just without their walls. The maintenance of such an attitude is not an easy thing. A system has been adopted, has suited the conditions and been pleasing to the people of the time when it was introduced. As the years pass it gathers about itself all the charms of antiquity and becomes, in the view of some, a thing almost sacred. We shrink from all suggestion of change as from a profanation; until, at last, the system itself is found to be standing hopelessly apart from the human needs it was intended to sub-serve. Change is the law of progress, and what fitted the conditions of life a few decades ago, can surely not be reckoned upon as necessarily in the most entire harmony with them to-day. In the domain of education, therefore, we feel justified in asking, from time to time, whether our system is in the fullest conformity with the circumstances and requirements of the period concerned. Let it be clearly understood that there is no suggestion here of any plea for the lowering of standards of scholarship. The highest ideals as to what a University may do for a people cannot but include provision for the cultivation of the profoundest scholarship, unrestricted facilities for research, and the broadest general culture of which the choice spirits of a nation are capable.

The suggestion is only this: that there is a very real danger that in the strenuous endeavour to accomplish all this, that which is essential to the preservation of the balance of life between thought and action may be left undone. Wherever this occurs much of intellectual talent that is born to industry, to the development of the resources of the country will inevitably be diverted from those tasks and consigned to comparatively fruitless labour, for which there is perhaps little, if any, aptitude, natural or acquired, and the sum of which, when they come to be estimated, is supremely unimportant in comparison with that which might, under wiser guidance, have been accomplished. Viewed thus, the problem that presses for consideration is seen to be one of the greatest importance, and also one for which it is exceedingly difficult to discover any full and practical solution. It is not claimed that such solution has been found; the best perhaps that can be hoped for is that the reality of the need for some new adjustment be recognised, and that a serious effort be made to meet that demand.

I hold no brief for what is known as the School Final Examination, nor is this the time for a discussion of its provisions. It may, however, be fairly claimed for it that it is an attempt to deal with a situation which has, for years, been forcing its way toward recognition by all who are intelligently interested in education. It is not a scheme to bring about any diminution of the normal out-put of graduates or to restrict the spread of education. It appears to me to be rather the beginning and a not unimportant one, of a process designed to give a wider scope of choice to the student and to make it possible for him to gain a liberal education, without his being confined necessarily to Courses of Study which, when completed, leave him in many cases, at least, as poorly equipped for any of the places that are calling for men of action as he was in the outset. At the risk of being stigmatized as hopelessly heretical in daring to suggest that any possible way could fulfil the demand of the time better than the old way, may I crave your patience for the moment or two necessary to make clear, chiefly by way of illustration, the general lines of change in method to the consideration of which I wish that the University might address itself?

1. First of all, let it be reiterated that we must keep in touch with the time. If we have become detached from present day interests and have come to regard a University education as a thing apart from such concerns, it is high time that the fact be faced. If it be, in general, true that there is an over-production of one type of University trained man and under-production of another, the responsibility for it rests with us rather than with any others, and the remedy, if such is to be found, must be discovered and applied by us.

2. There is a question connected with prescribed texts that bears a very intimate relation to the whole matter. Books are indispensable; there cannot be too many of them, so long as they are good books; but they can be misused. Teachers are familiar with the exceeding difficulty involved in preventing the wrong use of texts. The tendency is to regard the book as a thing to be memorized, not as a guide and stimulus to thought. The student is, by no means, wholly at fault, since observation has taught him that the former process ordinarily counts for most with the examiner, and that the latter may be ignored without material risk to the chances of passing in one of the lower divisions. Prescribed Courses of Reading there must be, and wisely used they never hinder; but that wise use is only realized when they are kept in the place of servants and helpers. The injury wrought sometimes by the misuse of texts is so great that one could almost wish that they might be prohibited rather than prescribed, except for purposes of reference and thoughtful reading under efficient guidance. The evil complained of is prevalent, in some degree, everywhere; but in conditions where the learner is called upon to use a language other than his mother tongue, as a medium, the danger is doubly great. Anything in the form of a remedy must be applied at a very early point in school life, and consistently maintained at every stage. Teachers must be found who can, so to speak, take their places between the student and the book, use the latter as a means of suggesting thought concerning the things of which it treats, of correcting false notions and providing material for mental processes.

3. The method in vogue of testing the fitness of a student for advancement to the higher classes, or for a University degree might, with great advantage, be subjected to scrutiny, with a view to remove some of its obvious defects. It is hardly probable that any here are cherishing a conviction that in our Regulations we find expressed the final word upon this subject. The majority of us are likely to be in the fullest agreement as to some of the evils and losses apparently inseparable from the application of our present rules. And yet the obstacles in the way of change have seemed so great, that we have hesitated to undertake even so much as a thorough examination of conditions, with a view to possible changes.

We complain of the lack of initiative, of intelligent, fruitful thinking on the part of the rank and file of our students. May it not be that this lack, if indeed such lack exists, is attributable to something in our system which discourages and represses the very quality the absence of which we lament?

Briefly, the case is this: the student, from the outset, is aware that at the end of two years of work, he must within a few short hours, on a particular day, manage to put upon paper something that will satisfy an examiner, who, by the way, must usually be a person who has no knowledge whatever as to the identity of the examinee, and must gauge his man entirely by the paper that comes into his hands. The youth who has before his mind for two years this day of crisis, is provided with a list of books which are to be read. Is it to be wondered at that he chooses as the surest way to success, the task of mastering the contents of those books? He does not expect questions involving an opinion or a deduction of his own to be asked, and not unnaturally believes that his greatest hope lies in reproducing the ideas and even the forms of expression of his author. This is, I believe, a point of vital weakness in our system. The result is that we bar the way against the thing that is most essential in an education. Instead of guiding our youth by a path that trains and developes the power of thought, we practically insist upon turning them into machines, or echoes, and thus shut the door of the highest mental development against them. The marvel is that, in spite of all this, so many of India's youth have wrought so well and taken their places in the ranks of those who have contributed to the intellectual stores of their time. They were too great to be kept out of the race by any form of handicap. But what of the multitude who are less great or less fortunate?

Amongst those who are ready to admit that our system is not perfect in its working, and that there is some call for remedial treatment, we shall find those who are skeptical as to the possibility of applying any tests other than those which have been our reliance from the beginning. Some will instance the unquestionable fact that our examinations have been improved and advise us to rest satisfied with what we have. But, if there be any considerable truth in what has been suggested as to the stupefying effects of some of our methods, it is surely high time that more serious thought than has hitherto been devoted to it be given to the possibility of some radical reform.

(1) It is my belief that more responsibility should be delegated to the Colleges. The candidate for a Degree receives his training in a College. The College might reasonably be expected to assist the University in its task of determining whether or not the student has so mastered his subjects as to merit a degree. The working out of some plan in accordance with which the certified record of his College work would count largely in the determination of a man's success or failure in a particular test is a task which I venture to commend to the members of this University.

(2) Another direction, toward which it is imperative that we turn our attention, is that of making our training vastly more practical. This need does not exist in the case of the Physical Sciences only. Literature, Philosophy, History, Mathematics have to do with the lives of men, and their study should be pursued, not merely because it gives pleasure and promotes personal culture, but because all this knowledge bears a direct and vital relation to the best work that a man can hope to do amongst his fellow men. We are fairly overwhelmed with theories, principles and definitions, and yet how infinitesimal their influence upon our lives! Let the student be shown something of the practical bearings of what he is striving to learn, and his tasks will be a joy and a blessing to him. No boy ever learned to swim by studying the definition of swimming, and no definition will ever save his life in the water. But after he has learned to take care of himself in the water, it will doubtless stimulate his intelligence to study the theories and principles of swimming.

How can modern knowledge be utilized? This is an enquiry, a reply to which is not, I venture to believe, beneath the dignity of a University, and from whom should an answer more confidently be expected? The University stands for the whole good of man—his uplift. It exists to increase and diffuse knowledge and this surely includes what is distinctively described as useful knowledge.
